City Landing Pages: Content Writer Brief

22 October 2026 · VA Mhari

Online copy, with page screenshots and comments: https://claude.ai/artifact/EkLkKTNazUsfqwdKfbK1oV

We are adding three city landing pages to the Virtual Office Angels website: Sydney, Brisbane (with the Gold Coast) and Melbourne. Each page needs its own copy, written from the real clients in that city. The layout below is a starting point: change it if the content works better another way.

The pages

Three pages exist as a mockup in the React design prototype. None is live, and none is linked from the website menu yet.

City	Planned address on the live site	Clients	VAs placed	Current mockup
Sydney	virtualofficeangels.com.au/virtual-assistants/sydney/	7	10	https://virtualofficeangels-mockup-1.vercel.app/virtual-assistants/sydney
Brisbane and the Gold Coast	virtualofficeangels.com.au/virtual-assistants/brisbane/	2	2	https://virtualofficeangels-mockup-1.vercel.app/virtual-assistants/brisbane
Melbourne	virtualofficeangels.com.au/virtual-assistants/melbourne/	1	1	https://virtualofficeangels-mockup-1.vercel.app/virtual-assistants/melbourne

Click through the mockup at the links in the last column. It is a design prototype, so its contact form does not send anything.

Why these cities

These are the three cities where Virtual Office Angels has active clients today, one in each state that has any.

- **Cities, not states.** The owner asked for areas smaller than a state; New South Wales is too large. People also tend to search by city ("virtual assistant Sydney") rather than by state.
- **Not suburbs.** Very few people search for a virtual assistant by suburb, and each suburb would have only one or two clients.
- **Sydney** has 7 of the 11 active clients and 10 of the 14 VAs, plus the office in Chatswood.
- **Brisbane** shares its page with the Gold Coast: the two are about an hour apart, and both clients are in finance.
- **Melbourne** has one client, so its page is the thinnest. It should grow as clients are added there.
- **Not included:** Wollongong (one client, Hokus E-bikes) and every city with no active client.

The ranking may change once Google Keyword Planner shows how many people search each city.

Active clients

These 10 clients are the only data source for the pages. They come from the "VA & Client Info" sheet of the action items tracker, sent by the team leaders on 21 October 2026. Past clients and the logo carousel on the

website are not used.

City	Client	Suburb	Industry	What the VAs do
Sydney	Road Surgeons	Botany	Maintenance and repair	Admin manager
Sydney	Industrias Services Group	Alexandria	Facilities services	Operations support; accountant and bookkeeper (2 VAs)
Sydney	RedP Marketing	Revesby	Marketing and advertising	Bing and Google analyst; video editor and motion graphics; social media and community management (3 VAs)
Sydney	Sureserve Financial Services	Woollahra	Insurance services	Financial planning admin assistant
Sydney	Integra Consulting	Eastwood	Education work health and safety	Executive administrative assistant
Sydney	Pool Aide	Lindfield	Repair and maintenance	Admin and accounts specialist
Sydney	Ressfin Total Lending Solution	Bondi Junction	Mortgage broking	Loan processor
Brisbane	Seet Advisory	Toowong	Financial services	Financial planner support
Gold Coast	Coastal Financial Consultants	Helensvale	Mortgage broking	Loans assistant and mortgage support
Melbourne	Velar Finance	Doncaster East	Mortgage broking	Loan processor

Before naming a client in the copy, it needs that client's permission. The same applies to logos and to any story about their business. Until permission is confirmed, describe clients without names, for example "a mortgage broker in Bondi Junction".

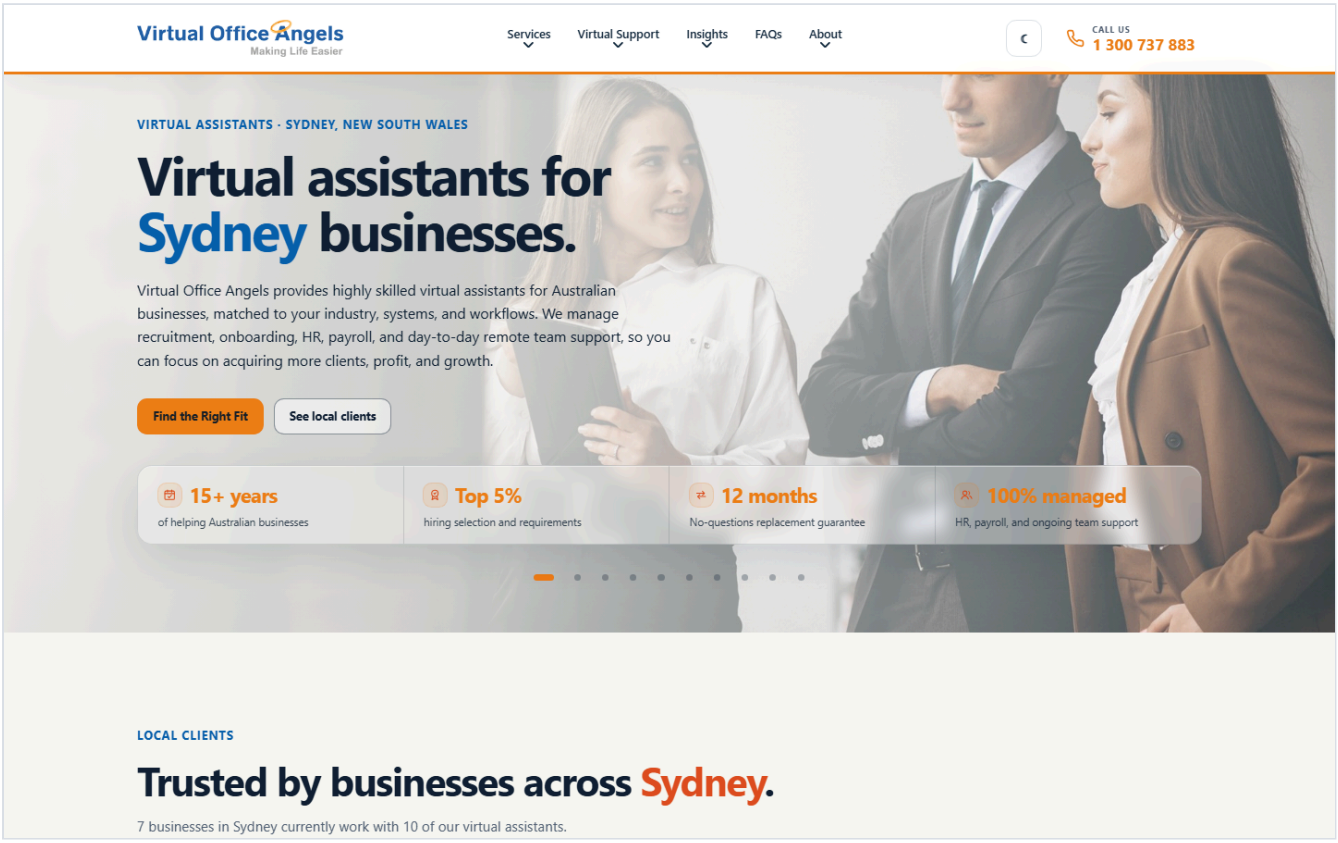

Current page layout

All three pages share seven sections, in this order. Most of the words are placeholders reused from other pages. You can rewrite, reorder, add or drop sections.

#	Section	What it holds now	Where the words come from
1	Hero	Small label "Virtual assistants · Sydney, New South Wales"; heading "Virtual assistants for Sydney businesses."; the homepage intro paragraph; buttons "Find the Right Fit" and "See local clients"; the four homepage figures (15+ years, Top 5%, 12 months, 100% managed) over rotating photos	Heading written for the mockup; intro, buttons and figures from the homepage
2	Local clients	"Trusted by businesses across Sydney.", a line such as "7 businesses in Sydney currently work with 10 of our virtual assistants.", then a tile per client (logo, or name if no logo, plus suburb)	Written for the mockup, from the client data
3	Working hours	"Support that works your hours.", the existing FAQ answer on operating hours, and a panel of three hours points	FAQ answer existing; panel written for the mockup
4	Services	"The support Sydney clients use." and a link to each service page the city's VAs work in, most VAs first (Sydney 5, Brisbane 2, Melbourne 1)	Service titles from the service pages

#	Section	What it holds now	Where the words come from
5	Client story	Sydney: the existing case study (a consultancy in Epping). Brisbane and Melbourne: a placeholder	Existing case study; placeholders
6	FAQs	"What Sydney businesses ask us." and four existing FAQs: operating hours, weekend work, communication, privacy	Existing FAQs, the same on all three pages
7	Contact	"Let's talk" and "Looking for virtual support in Sydney?" above the contact form	Written for the mockup

Brisbane and Melbourne follow the same layout with their own city name, clients and hours.

Sydney page: the hero, the same as the homepage's

LOCAL CLIENTS

Trusted by businesses across Sydney.

7 businesses in Sydney currently work with 10 of our virtual assistants.

Road Surgeons · Botany	Industrias Services Group Alexandria	RedP Marketing Revesby	Sureserve Financial Services · Woollahra	Integra Consulting · Eastwood	Pool Aide · Lindfield	Ressfin Total Lending Solution · Bondi Junction

WORKING HOURS

Support that works your hours.

We follow Australian business hours from 9am–5pm AEST, Monday to Friday. Extra hours may be requested outside normal business hours or on weekends, subject to additional hourly fees.

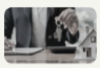

Your hours, Sydney time

- ✓ Monday to Friday, 9am–5pm AEST: the same clock as your office
- ✓ Extra hours on weekends or holidays by prior arrangement
- ✓ An Australian-led team, with our office in Chatswood

SERVICES

The support Sydney clients use.

All services

01	Executive & Administrative Virtual Support	
02	Digital Marketing Virtual Assistance	
03	Accounting and Bookkeeping Virtual Support	
04	Financial Planning & Admin Support	
05	Mortgage & Loans Processing Virtual Support	

Sydney page: local clients, working hours and services

What to write

Each page needs its own copy for the items below. The city column says what is particular to it.

Item	Sydney	Brisbane and the Gold Coast	Melbourne
SEO title and meta description (for Yoast)	Lead with "virtual assistant" and "Sydney"	Lead with Brisbane; mention the Gold Coast in the description	Lead with Melbourne
Hero heading and intro	Replace the homepage intro with one about Sydney businesses; the office is in Chatswood	Both clients are in finance: financial planning and mortgage broking	The one client is a mortgage broker
Local clients intro	7 clients across 7 suburbs, from mortgage broking to marketing and facilities	2 clients, Toowong and Helensvale	1 client, Doncaster East
Working hours	Same clock as the office	Queensland has no daylight saving, so from October to April it is an hour behind Sydney (see Open questions)	Same clock as Sydney all year
Services	A line per service on the work done for local clients (admin, digital marketing, bookkeeping, financial planning, mortgage)	Financial planning and mortgage support	Mortgage and loans processing
Client story	Keep the Epping case study, or replace it with a story from a current Sydney client	A story from Seet Advisory or Coastal Financial, with permission	A story from Velar Finance, with permission
FAQs	Optional: one or two Sydney questions	A question on hours across time zones	Optional
Closing line	"Looking for virtual support in Sydney?" or better	Same idea	Same idea

Rules and things to know

The biggest risk is three pages that read the same with only the city name swapped. Google calls these "doorway pages" and can push the whole site down for them.

- **Make each page genuinely local.** Write about that city's clients, industries, hours and story. If a sentence would work on all three pages, it belongs on the main service pages instead.
- **Only real facts.** No invented figures, client results, testimonials, awards or people. If something is missing, leave a [placeholder] and add it to Open questions.
- **Client permission first.** Name a client, show a logo or tell a client's story only once the client has agreed. Until then, describe them, for example "a financial planning practice in Toowong".
- **Say "Virtual Office Angels" in full,** never "VOA".
- **Australian English** (organise, specialised).
- **Keep it short.** The site uses short, high-impact copy: brief headings and paragraphs of two or three sentences.
- **Link to the service pages** rather than repeating them: each service already has its own page.
- **Search phrases are not confirmed yet.** "Virtual assistant Sydney" (and Brisbane, Melbourne, Gold Coast) are the likely ones. Keyword Planner numbers will confirm them later, so use them naturally and don't stuff them in.

Open questions

These facts are still unconfirmed. Leave a placeholder wherever the copy depends on one.

- [ ] **Brisbane hours:** while New South Wales is on daylight saving (October to April), do Brisbane clients' VAs work Brisbane time or Sydney time?
- [ ] **Finishing time:** the website says 9am–5pm, but the Google Business Profile says 9am–5:30pm. Which is right?
- [ ] **Office address:** the website says Level 13, Suite 1A, 465 Victoria Avenue, Chatswood. The tracker says Ground Floor, and some Google searches say Level 14.
- [ ] **Client permission:** which clients agree to be named, show a logo or share a story? The team leaders are the contact.
- [ ] **Logos:** five clients have no logo on file (Industrias, RedP Marketing, Seet Advisory, Coastal Financial, Velar Finance). Two logos on file need checking: "SureServ" for Sureserve Financial Services, and "Integra Consultancy" for Integra Consulting.
- [ ] **Sydney case study:** is the Epping consultancy still a current client?
- [ ] **Search volumes:** Keyword Planner numbers for each city, to confirm the order and the phrases.
